

## ADVANCED LIFE, POWER AND DURABILITY (A3)

### • MAINTENANCE FREE – CALCIUM/CALCIUM

- BCI Group 92 (T7/LB4), 12V
- CCA 650 / CA 780
- Reserve Capacity[min] 130 @ 25 A
- Weight: 37 lbs.
- Length- 12 ½ in (317 mm)
- Width- 6 7/8 in (175 mm)
- Height- 6 7/8 in (175 mm)
- Positive terminal on RIGHT

QUALITY SYSTEM  
CERTIFIED TO  
**ISO 9001**  
ISO/TS 16949

**QS 9000**  
WIRE & CABLE  
DIVISION  
**ISO 14001**

- Increased grid frame tensile strength, resists plate growth to safeguard against life-threatening shorts.
- Thicker back web and puncture resistant separators prevent plate-to-plate electrical shorts
- Ultra-Pure Electrolyte with no impurities inhibits unnecessary water loss.
- Full-frame plate vs. expanded metal grid prevent exposed wire electrical shorts
- Advanced battery formation controls prevent high temperature damage and under-formed plates.
- **EAST PENN POWER-PERFORM PLATES , WHEN COMPARED TO LEADING COMPETITORS HAVE 13% LESS POSITIVE PLATE FAILURES.**
- **LAST 24% LONGER IN HIGH HEAT AND SEVERE SERVICE APPLICATIONS**
- **HAVE 25% LESS PREMATURE FAILURES THAN THE LEADING COMPETITORS**

East Penn's Advanced-Cubed (A3) Technology utilizes internal components made with the finest life extending and power producing materials. These materials, such as the purest electrolyte and specially formulated oxide, are the same used in batteries for critical stationary applications with an extended design life. High-end components are precision crafted into the battery to achieve maximum durability. This process utilizes the most modern equipment to ensure that this is done in the most efficient way.

# MAINTENANCE-FREE CONSTRUCTION

- Flush cover design enhances overall battery performance, maintenance, safety, and convenience
- Fortified posts, straps, & welds resist vibration damage, maximize current transfer
- Enhanced crystallization of Power-Perform™ plates provides more power-per-pound
- Short-protector separators have thicker backweb material that prevents plate-to-plate shorts
- Ultra-pure demineralized electrolyte precision filled to exacting levels for extended life

### Power-Perform™ Plates

- Full-frame positive and negative plates prevent life robbing electrical shorts from exposed wire
- Maximizes power and energy storage capacity

## Experience The East Penn Advantage

The Advanced-Cubed precision-focused manufacturing approach ensures the process behind the technology delivers critical quality at each stage of battery production. Deka batteries are supported by A3 manufacturing to optimize the life, power, and durability of the battery's design and performance.

All Deka batteries are made with the most advanced computerized equipment in order to make the very best product. These batteries undergo stringent testing and quality control checks to ensure dependability. All internal components are made from the finest raw material resources. These raw materials are tested by the latest equipment for purity, quality, and performance.

A3 Advanced-Cubed technological features have been incorporated throughout the entire battery design to deliver trusted reliability, longevity, and performance beyond expectation.
