Conventional automotive batteries can be extremely intimidated by the power demands of today's vehicles – falling short of delivering critical dependability and performance. Cars, trucks, SUVs, and other passenger vehicles have more electronics than ever before.

Intimidator automotive batteries are especially designed to handle factory installed electronics to anything that plugs in or turns on, and still deliver dependable starting power. With almost 2x the endurance* in severe service and 2x the cycle life*, these batteries are equipped for the toughest conditions and the most intense electrical power demands.

Intimidator automotive batteries are also ideal for tuner cars or off-road vehicles, offering superior power for high-performance equipment and a high- impact design for rugged, back road adventures.

Deka®

INTIMIDATOR

INTIMIDATOR® AGM Series for AUTOMOTIVE HEAVY DUTY APPLICATION

- Over 2x the cycle life* maximizes accessory and trolling power
