

TECNOLOGÍA CALCIUM+

DUNCAN

**ACUMULADORES DUNCAN
45R-850**

• SIN MANTENIMIENTO – CALCIO/CALCIO

- Grupo 45R, 12V
- CCA 500 / CA 650
- Capacidad de reserva[min] 90 @ 25 A
- Capacidad de 20 horas (C20): 50 Ah
- Peso: 30,6 lbs. (13,9 kg)
- Longitud: 9 1/16 in (230 mm)
- Ancho: 5 1/2 pulgadas (139 mm)
- Altura: 8 3/4 pulgadas (223 mm)
- Terminal positivo en la DERECHA

BATERÍAS DUNCAN – NOSOTROS MOVEMOS LA VIDA

La avanzada tecnología de Calcio-Estaño de Duncan combina materiales de alta pureza con sistemas de fabricación modernos para ofrecer una durabilidad excepcional y un rendimiento inicial potente. Cada batería está diseñada para cumplir con exigentes estándares, ofreciendo una potencia superior y fiabilidad probada en una amplia gama de aplicaciones automotrices. Duncan es un proveedor de Fabricantes de Equipos Originales (OEM) para las plantas de ensamblaje de Chrysler, Fiat, Ford, General Motors, Hyundai, Mitsubishi, Renault y Toyota en Venezuela, reforzando su reputación como socio de confianza para las principales marcas globales.

Flat top cover

With flame arresting devices and gas/liquid separation chamber improves performance and a fully maintenance free service life

Calcium-Tin Technology

Minimized plate corrosion and water consumption, increasing service life

More Electrolyte

Ensure longer life when operating under extreme conditions and environments.

Expanded Grid Technology

Increase CCA, improve performance under vibration and high rate discharges, and reduce growth and heating

Microporous envelope

Separators Improve CCA and provide a longer, failure free service life by preventing short circuits

MAINTENANCE-FREE CONSTRUCTION

- Terminal Posts → Reinforced & resist vibration, maximize current transfer.

- Expanded Grid Technology → Increase CCA, improve performance under vibration and high rate discharges, and reduce growth and heating

- Calcium – Tin Technology → Minimized plate corrosion and water consumption, increasing service life

- Microporous envelope Separators → Improve CCA and provide a longer, failure free service life by preventing short circuits

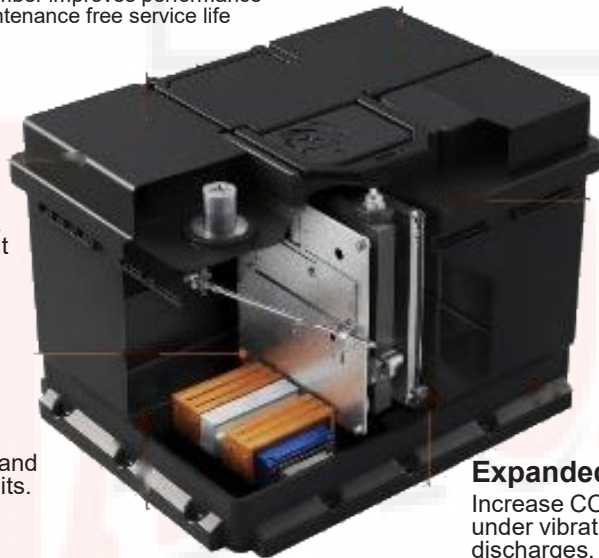

- Ultra-pure electrolyte → extends service life and reduces self-discharge.

Terminal Posts

Pressure-cast, prevent leaks, withstand vibrant and conduct more current

Ultra-Pure Electrolyte

Electrify smoothly and prevent short circuits.

Experience The Duncan Advantage

Duncan is one of Latin America's most trusted and established automotive battery brands. With over 70 years of experience, the company blends cutting-edge technology, strict quality standards, and a strong regional distribution network ensuring reliable product availability and a dependable supply chain for all its partners and customers.
